

Pentewan Valley Parish Council
Climate, Ecology and Environment Advisory Group

Meeting of the Climate, Ecology and Environment Advisory Group, held at Tarzell and on Teams

Date: Monday 7th July 2025 - 7pm

Present: George Muskett, Anthony Hereward, John Sundercombe
On-line: Miranda Smith
Apologies: Steve Street

1. **Change of name/terms of reference.** Change to 'group' rather than 'committee'. Noted minor changes on name and would seek change so that the group should be able to choose members. Otherwise, all in favour.
2. **White River Project.** Next meeting of Steering Group is 15th July and to be promoted at the CAP meeting 23rd July. SWW are considering reparation for the major pollution incident by projects along the river. MS has chatted with James Mustoe on this outfall incident. JM will meet with Jeremy of 3 Bays Wildlife to see how we can keep up the pressure.
3. **Plan review and new projects.** No progress as yet on the new climate plan.
4. **Neighbourhood Development Plan.** Cornwall Council have confirmed that SEA/ HRA not required. Historic England had raised issues that have been covered by additions to the plan. However there is no more government funding for NDPs, but PC will carry forward. Referendum should be paid for by the CC.
5. **Menagwins.** Not much to report. Spring flowers gone over.
6. **AOB**
 - a. Questionnaire from Climate Vision for anyone to complete. Link: <https://forms.office.com/e/hgTXjGH4Cd>
 - b. Lottery funding. Possibly information board at Menagwins. Possibly involving schools - Pondhu?
 - c. Possible to influence some of the housing developments in terms of provision for nature. Discussion around this ensued.
7. **Date of next meeting.** Provisional dates:
Monday 11th August
Tuesday 9th September
